ESTIMATES FOR SALARIES

IN THE EXECUTIVE DEPART- MENTS AND ESTABLISHMENTS

ESTIMATED BY THE COMMISSION ON
EXECUTIVE SALARIES AND ALLOWANCES
FOR THE FISCAL YEAR 1910

APR 5 1910
D. OF D.

31

To the Senate and House of Representatives:

I transmit herewith for the consideration of the Congress estimates for salaries in the Executive Departments and establishments, prepared by the Committee on Grades and Salaries, under the Executive Order of June 11, 1907.

THEODORE ROOSEVELT.

THE WHITE HOUSE, *February 11, 1908.*

LETTER OF TRANSMITTAL.

WASHINGTON, *February 10, 1908.*

The PRESIDENT:

The Committee on Grades and Salaries have the honor to submit their report, prepared in obedience to the following

EXECUTIVE ORDER.

A Committee on Grades and Salaries in the Executive Departments shall be formed as speedily as practicable, to consist of one competent employee named by the head of each department and independent establishment, who shall prepare clear and consistent tables of estimates for positions and salaries in conformity with the schedule and recommendations of the Committee on Department Methods of January 4, 1907. Officials will cooperate with this committee in arranging said estimates for presentation to Congress, in convenient form for comparison with the estimates prepared in the usual way required by law.

THEODORE ROOSEVELT.

THE WHITE HOUSE,
June 11, 1907.

SCHEDULE OF POSITIONS AND SALARIES REFERRED TO IN EXECUTIVE ORDER.

SUPERVISORY GRADE.

<i>Chief Clerks and Chiefs of Divisions.</i> —Employees who perform supervisory, executive, and administrative duties	<div>Salaries. \$2,100 to 4,200</div>
---	---

CLERICAL GRADE.

<i>Senior Clerks.</i> —Employees who are assigned to work largely supervisory, or requiring the highest order of clerical ability, involving much original thought, consideration, and investigation	<div>2,100 1,980 1,860</div>
--	--------------------------------------

Examples of such work are the investigation of large and intricate cases, requiring familiarity with the laws and decisions of courts and with Department practice and policy, and the drafting of action thereon; the conduct of such investigations with the aid of assistants whose work must be directed and corrected; service as paying teller with large responsibility; acting as chiefs of sections or divisions, and preparing or laying out work for others.

<i>Clerks.</i> —Employees who are assigned to work more or less routine, involving responsibility, special ability, and original thought, consideration, and investigation	<div>1,740 1,620 1,500</div>
--	--------------------------------------

SALARIES IN THE EXECUTIVE DEPARTMENTS.

CLERICAL GRADE—continued.

Examples of such work are directing and instructing clerks of lower grades; expert stenography; editing; the ascertaining of facts independently in complicated cases, and drafting action thereon; serving as confidential clerk to head of department or bureau; bookkeeping involving an extended knowledge of Department records and precedents and the handling of intricate accounts; recording complex and difficult cases and properly indexing the same; service in purchasing and issuing supplies; service as paying teller; examining money accounts requiring familiarity with the laws and with regulations and requirements of the Treasury Department.

<i>Junior Clerks.</i> —Employees who are assigned to work of a routine character,	\$1,380
requiring but little original thought or consideration, but requiring judgment, responsibility, and special skill	1,320
	1,260
	1,200

Examples of such work are preparing briefs of papers in a case for recording; expert filing; examining property returns; proof reading; issuance and distribution of supplies; examining vouchers and disbursing accounts, under the application of simple standards and requirements; recording cases and transactions where considerable judgment is required to determine the relative importance of factors, and preparing an adequate index thereof; the ascertaining of facts independently and drafting action on average cases; composing and preparing letters for official signature; stenography requiring skill and practice; bookkeeping involving a knowledge of the theory of accounts and departmental records and precedents.

<i>Under Clerks.</i> —Employees who are assigned to work of a simple or routine	1,080
character requiring care, accuracy, and skill	1,020
	960
	900

Examples of such work are mere copying and typewriting; simple indexing; filing cards and papers; briefing contents of letters or documents on back; preparing letters by filling blank forms for official signature; mailing or dispatching; easier stenography; simple bookkeeping, requiring but little knowledge of the theory of accounts.

SUBCLERICAL GRADE.

Employees whose duties are not clerical or mechanical, but require some special	840
skill, or involve personal responsibility, as messengers, watchmen, skilled	780
laborers, sorters, and counters	720
	660
Employees engaged in rough and unskilled work, as laborers generally .	660
	600
	480
Employees who enter the service at an early age and are engaged in light work,	420
as messenger boys	360
	300
	360
Employees whose work occupies only part of the time each day, as charwomen	300
and janitors	240

LETTER OF TRANSMITTAL.

7

PROFESSIONAL, SCIENTIFIC AND TECHNICAL, AND MISCELLANEOUS EMPLOYEES.

The salaries of these shall be assimilated, as far as practicable, to the scale established for clerical and higher grades. The number and variety of designations shall be as small as practicable; and the duties assigned to such employees shall be confined as far as possible within the lines indicated by their titles and for which they may have passed examinations.

Any line of work not herein mentioned should be assigned to the grade to which, after careful comparison, it seems most nearly related.

SKILLED TRADES EMPLOYEES.

No fixed scale of compensation is recommended, but whatever salaries are determined upon should conform to the grades fixed in the schedule.

The design of the foregoing schedule is to promote the efficiency of the service by providing entrance salaries sufficiently high to attract competent persons; such a gradation of salaries as to assure frequent promotion, as a stimulus to effort; the higher salaries sufficient to develop and retain the best expert service; and an equalization of salaries in all the Departments, according to character and responsibility of the work performed. The salaries proposed are multiples of 12, for convenience in making the monthly payments required by law.

In preparing tables for the several offices and bureaus these two general rules have been observed:

1. To give more adequate compensation to the men who furnish directive power, executive ability, and special or technical knowledge.
2. To provide for the administrative and clerical force a scale of pay which will permit all who enter the civil service to rise by diligence and efficiency to a moderate living salary in a reasonable time.

Beyond the moderate living salary, found in *the grade of clerk*, promotions to the senior clerk and supervisory grades will come more slowly, by selection on the grounds of special fitness and approved ability.

Cumbersome and unnecessary titles have been eliminated or simplified, as far as possible.

BASIS OF COMPARISON.

The official estimates for 1909 provide for additions to the force in many bureaus, which result sometimes in large increase over present appropriations, though affecting but slightly the rates of salaries. In order to show the change in rates and amount of salaries, the average increase, and the per cent of increase, comparison must be made with the rates and total of the estimates, not with the last appropriation. Therefore, in dealing with each office or bureau, the Committee has taken the total number of persons estimated for, and, analyzing these numbers grade by grade and class by class, has rearranged them under the grades and salaries of the new schedule. The resulting increase in amount and percentage is set out in the footings and recapitulations.

For convenience of reference the last appropriations are also shown, and (in parentheses) the changes in the official estimates.

The total increase required by our revised estimate is 7.7 per cent over the official estimates for 1909 and 14.6 per cent over the appropriations for 1908 for the Departments as a whole. In several Departments and bureaus, it is found that exceptional conditions exist which justify a rate of increase higher than the average.

Very respectfully,

JOHN W. HOLCOMBE, *Chairman,*
Chief of Appointment Division,
Department of the Interior.

CHAS. RAY DEAN,
Chief of Bureau of Appointments,
Department of State.

CHAS. LYMAN,
Chief of Appointment Division,
Treasury Department.

WILLIAM D. SEARLE,
Appointment Clerk,
War Department.

CHAS. B. SORNBORGER,
Appointment Clerk,
Department of Justice.

G. S. PAULL,
Appointment Clerk,
Post-Office Department.

F. S. CURTIS,
Chief Clerk,
Navy Department.

A. ZAPPONE,
Chief of Division of Accounts,
Department of Agriculture.

WM. L. SOLEAU,
Disbursing Clerk,
Department of Commerce and Labor.

G. R. WALES,
Chief of Division,
Civil Service Commission.

WILLIAM L. POST,
Superintendent of Documents,
Government Printing Office.

^a Decrease.

The increase over the official estimates beyond 10 per cent is due to the large number of low-salaried employees who receive less than \$900, and whose salaries have been raised to that grade. The apparent large increase over the appropriations for 1908 is also due to this fact, and to the additional fact that many new places were added by the Secretary in the official estimates to meet the increased demands of the Department.

Clerks (reduction of 3 at \$900), 7 at \$900	6,300
Messenger (increase of \$120)	840
Total	24,740

NOTE.—The foregoing includes the office force, the field force, and the rural carrier examining board, which, although appropriated for separately for 1908, are interchangeable under the law. The Commission renews through this committee the recommendation submitted with former estimates, that the separate appropriations for these forces be consolidated into one. The rural carrier examining board is simply a division of the Commission, the force of which is employed in its own building. The field employees are also a part of the organization of the Commission.

It is frequently necessary to transfer or detail an employee from the office to the field force or to the rural carrier examining board, or to transfer an employee in the field force to the office of the Commission. At present, employees borne on the office rolls are on duty in the field, employees borne on the rolls of the rural carrier examining board are on duty in other divisions of the Commission or in the field, and employees borne on the field force rolls are on duty in the rural carrier division or in other branches of the office. This is an anomalous condition, but has resulted from separations from the service, and necessary transfers and promotions in the interest of good administration.

DEPARTMENT OF STATE.

			At \$840.....	3	2,520
			At \$720.....	25	18,000
			Messenger boys, at \$480.....	40	19,200
			Total.....	917	\$1,419,000
					1,371,610
			Increase over official estimates.....		\$47,390
			Average increase.....		\$52
			Per cent of increase.....		3.4
			Per cent of increase over appropriations for 1908.....		45.7

NOTE.—In this office it seems proper to retain, for the next year at least, the grade of copyist, at \$720. This is an exception to the schedule, which has fixed \$900 as the lowest clerical salary; but in the Patent Office there is a large body of classified laborers at \$660 and \$480 a year who are assigned to clerical work, mainly typewriting. The plan proposed of raising these employees to the grade of copyist at \$720, with the restriction that they shall not be further promoted unless they shall have passed the proper civil service examination, is approved.

Junior clerks:		5 at \$1,200	Telephone operator		
3 at \$1,380	4,140	2 at \$1,080	Elevator conductor	Total	\$149,910

NOTE.—Comparison is made in case of this establishment with the salaries now actually paid to the 162 persons employed and the salaries that will be paid the same number under the revised system, showing in the "lump fund roll" the multiplicity and variety of titles and rates of pay that come to prevail in the absence of legal restrictions. The high per cent of increase necessary to bring these employees up to the general standard of Department salaries shows further at what disadvantage they are placed by the lump fund system. It is the inevitable tendency in offices employing service in this way to force down the pay of clerical employees in order to have more money for salaries and field investigations of scientists and specialists.

DEPARTMENT OF THE INTERIOR.

ESTIMATES FOR SALARIES.

PART II.

ARSENALS AND NAVY-YARDS.

By a letter of August 3, 1907, from the Secretary to the President, it was directed that the clerks and draftsmen at arsenals and navy-yards be included in the tables of estimates for positions and salaries.

In compliance with that direction the following statements have been prepared.

THE ARSENALS.

The clerks and draftsmen at the arsenals under the War Department are not provided for directly by legislative appropriation, as are those in the Executive Departments in Washington. The number of clerks and draftsmen employed at these arsenals is regulated by the needs of the work being done at them, and the rates of their salaries are determined by the Secretary of War.

The present practice: After ascertaining the number of clerks required at an arsenal or other ordnance establishment, they are divided among the different salary classes, ranging from \$720 to \$1,800, in the same proportion as is now allowed by Congress for the office of the Chief of Ordnance at Washington. The distribution among the various classes now made at ordnance establishments is in accordance with the following table of percentages:

Pay.	Percentage in grade.
\$1,800.....	8.0884
\$1,600.....	9.3137
\$1,400.....	15.7680
\$1,200.....	33.6600
\$1,000.....	16.9930
Below \$1,000.....	16.1770

The rates of pay below \$1,000 are \$900, \$840, and \$720.

SALARIES IN THE EXECUTIVE DEPARTMENTS.

Under this table, for illustration, if 15 clerks are required at an ordnance establishment, the distribution of their salaries is as follows:

	Per cent.
1 at \$1,800, which is	8.0884
1 at \$1,600, which is	9.3137
2 at \$1,400, which is	15.7680
5 at \$1,200, which is	33.6600
3 at \$1,000, which is	16.9930
3 below \$1,000, which is	16.1770

If the number required is 20, the distribution is:

2 at	\$1,800
2 at	1,600
3 at	1,400
7 at	1,200
3 at	1,000
3 below	1,000

If there should be any change made in the numbers in the different classes of salaries in the office of the Chief of Ordnance, a corresponding change is intended to be made by the War Department in adjusting the salaries for ordnance establishments.

The Chief of Ordnance is of opinion that it is much better that clerks and draftsmen at the arsenals of the Ordnance Department should not be fixed as to number and salary by legislation, since the needs of the employment of these persons vary more rapidly than it is possible to secure congressional action, and the effect would naturally be, if these positions were fixed by legislation, to insure that there should be no shortage of necessary help by making estimates for numbers and rates of pay which would represent the superior limit of possible requirement, thus tending toward extravagance.

Therefore it is recommended that the percentage table for distribution of salaries be changed so as to provide for the clerks at ordnance establishments in accordance with the distribution recommended by this committee for the office of the Chief of Ordnance at Washington, and that increases be made in the pay of draftsmen which on the whole shall correspond to the increase allowed the clerks. The table submitted, which will afford an increase in salaries of 9.69 per cent, is as follows:

Pay.	Percentage in grade.	Pay.	Percentage in grade.
\$2, 100	01. 6666	\$1, 320	13. 3333
\$1, 980	03. 3333	\$1, 260	10. 0000
\$1, 860	06. 6666	\$1, 200	06. 6666
\$1, 740	08. 3333	\$1, 080	05. 0000
\$1, 620	10. 0000	\$1, 020	05. 0000
\$1, 500	10. 0000	\$960	05. 0000
\$1, 380	11. 6666	\$900	03. 3333

NOTE.—The deficiency act approved March 4, 1907, provides as follows:

"The Secretary of the Navy is hereby authorized to continue to employ and pay out of the lump appropriations of the several bureaus of the Navy Department such classified civil service employees as may be necessary to properly perform the clerical, drafting, inspection, messenger, and other classified work at the several navy yards and stations, and that he be directed to submit to Congress, at the beginning of the next session, the amounts probably to be required during the fiscal year nineteen hundred and nine for such services under the several lump appropriations referred to for employees performing classified work at navy yards and stations."

In connection with the above it is recommended that section 1545 of the Revised Statutes be modified to the extent of authorizing the Secretary of the Navy to fix the ratings and salaries of the clerical, drafting, inspection, and messenger force included in the above provision on a per annum basis instead of on a per diem basis.
